International Representative:

Neda Razaz

Trainee Representative:

Xuanxuan Zhu

Administrator:

Sue Bevan

SPER Newsletter (Summer 2026)

President's Corner

I look forward to seeing all of you in just a few short weeks in Phoenix at the annual meeting. The annual meeting will begin on Monday June 22nd at 3 pm with a time to meet and greet our newer and our “older” members at the Welcoming Peers networking session. The meeting will officially kick off with an Opening Panel on the ***HEALthy Brain and Child Development Study***. More details on the full program appear later in the newsletter (also see our website).

Virtual Meeting

Thank you to Sarka Lisonkova for organizing and leading our successful 3rd SPER Virtual Meeting. We also appreciate our Trainee Representative, Xuanxuan Zhu, organizing the career networking session at the Virtual Meeting (as well as the Virtual Methods Meeting!)

SPER in 2026

The assault on science infrastructure and funding in the U.S. has now reached unprecedented levels. Please consider staying on for the Business Meeting to talk about what we can do as individuals and as an organization. To keep up with the most recent news, I have found the Stand Up for Science organization to be very informative and to be an avenue for advocacy: <https://fight2win.standupforscience.net/>

You may want to read the [news article](#) as well as [the editorial](#) as it provides context to what we are experiencing. I promise that our attendees can share whatever they want to distribute at our SPER meeting!

At the end of the scientific meeting, Dr. Lisonkova will transition to the SPER President and new board members will join us.

Sincerely,

Dawn Misra

SPER President

Join an SPER committee!

[SPER committee webpage](#)

Program Committee

The Program Committee helps plan the annual meeting. Committee members identify topics for Concurrent Contributed Sessions and select presentations for these sessions from submitted abstracts. A call for volunteers will be announced in the coming weeks.

Communications Committee

The purpose of the Communications Committee is to coordinate and enhance communications between the Society and membership. The committee has primary responsibility for the SPER newsletter, for SPER's communication via social media, and developing a communications plan.

[Join the communications committee here.](#)

Digital Engagement Committee (DEC)

The purpose of the Digital Engagement Committee is to help develop and oversee SPER online education initiatives, to include: online seminars, including joint SPER/SER presentations as well as other webinars, and other posted material such as SPER playlists.

[Join the digital engagement committee page here.](#)

Outreach Committee

The purpose of the Outreach Committee is to promote awareness and accessibility of the Society to help grow the membership. The Committee has responsibility for overseeing initiatives aimed at recruitment of new members and retention of existing members and expanding the Society's reach.

[Contact or join the outreach committee here.](#)

Student & Post-Doc Working Group

The mission of the Student, Trainee, & Post-Doc Working Group is to facilitate the educational experiences and professional development of trainees in pediatric and perinatal epidemiology-related disciplines by providing information, resources, and networking opportunities; facilitating trainee exchange of research ideas; planning the [Advanced Methods Workshop](#) and trainee events at the annual symposium; and promoting trainee engagement in SPER..

[Join the student and post-doc committee here.](#)

Equity Advisory Board

The Equity Advisory Board intersects with SPER programming and activities to promote equity both within the society and in perinatal, pediatric, and reproductive epidemiologic research. The board meets monthly and hosts an open listening session each year where any current or prospective SPER member can attend and discuss topics related to equity, and we plan activities over the coming year.
